DRY LAKE COMPLEX, Gila National Forest. A Fire Use Management Team (Duncan) is assigned. This lightning caused Wildland Fire Use complex, comprised of the Dry Lake, Sycamore, Moonshine, and Granny fires, is 27 miles northwest of Silver City, NM. The complex is being managed to accomplish multiple resource objectives. Increased fire behavior throughout the complex was observed in stands of mixed conifer, pinyon pine, juniper, ponderosa pine and grass due to lower relative humidity. Crews continue to patrol and monitor the fires. Smokejumpers and rapellers continue to check the spread of the Moonshine fire on the western flank.

POWELL, Grand Canyon National Park. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is burning in ponderosa pine, grass, gambel oak and manzanita, 23 miles northwest of Grand Canyon Village, AZ.
